

This is what *hope* looks like

Put a smile on the face of a child with a donation to the

Kids Helping Kids Fund

Breakfast programs before school

- Two million people in Canada suffer from food insecurity, half of them are school-aged children.

After-school homework coaching

- Many Canadian children have trouble with homework and no one at home to help them.

Caring for children with an end-of-life diagnosis

- When there is no cure, children still need care.

Giving kids a chance to go to summer camp or choir school

- Many kids in Canada don't have the chance to learn, play, develop, and grow . . . just to be kids!
